

# Shared Services

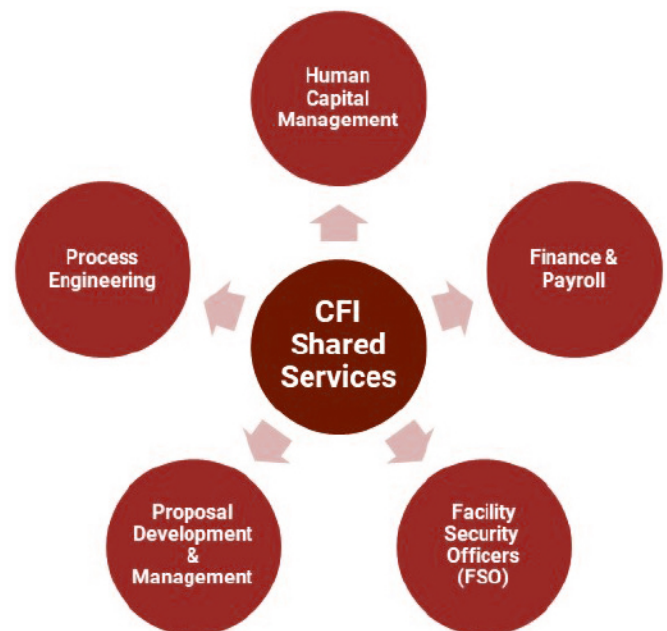

## Achieve DoD Compliance & Operational Success for Your Small Business

**As a small business owner, do you spend long hours balancing your time and resource between core business activities and administrative requirements? Is there constant pressure to perform for existing customers, leaving little to no time for product or business development?**

As a successful Small business, with over twenty years of experience providing software and system development for large Prime contractors and defense customers, CohesionForce, Inc. understands what it's like to juggle a full schedule of clients, employees, meetings, and various other important, but less exciting, business necessities. That's why we have customized an offering for emerging small businesses—CFI Shared Service.

With CFI Shared Services, your business can achieve operational success by leveraging our experience and expertise navigating DoD compliance, and applying best practices in the following functional business areas:

- Human Capital Management
- Finance/Payroll
- Security Facility Officers (FSOs)
- Proposal development/management
- Process Engineering including the application of:
  - 4DX principles
  - SAFe Agile Support and Training
  - Corporate processes documentation using Key Business Events

— We —  
**Believe**

Engineering with Discipline Should Be Easy  
Systems Should Be Fulfilling to Use  
Better Systems Are Needed to Solve the Problems of Tomorrow
